

présentation of the project

Ministère de l'Architecture aims to stimulate architectural and urbanistic creativity. Ministère de l'Architecture is a ministry of architecture. Here, architecture is understood as the whole arranged environment of the citizens.

Ministère de l'Architecture exclusively promotes imagination. Ministère de l'Architecture wants to re-give its place to the concept of possibility in the conception of common spaces. Ministère de l'Architecture concerns all kind of artists, even architects.

Ministère de l'Architecture initiates creation programmes around various themes. Ministère de l'Architecture organizes exhibitions and publications of accepted projects. Ministère de l'Architecture only imposes two restrictions on artistic proposals:

- Artistic proposals must be addressed by electronic way to Ministère de l'Architecture in the form of a document (.pdf, .doc., or .jpg) of A4 format, black and white, 9 pages maximum. Thus, admissible projects are printable on an office printer. Videos, animations, models are prohibited. Projects must be written and (possibly) briefly illustrated. Indeed, as Ministère de l'Architecture promotes imagination, the work of picturing is reserved to the public.
- Ministère de l'Architecture does not accept any curriculum vitae. Proposals should be accompanied by contact information and the name under which the contributor intends to make himself known.

With the exception of these two restrictions, everything is permitted.
